"Earnings of a typical iAssociate who is active for at least six months with the company are [estimated at] approximately \$1423.27 in those six months."

To get an idea of the current cycle timeframes, look at the check dates of my gmt! checks above. Cycle timeframes for the Co-Operative Matrix and Director Matrix are directly related to Personal Group Sales of the Online Re-Commerce Communication Systems and Personal Online Portals or other current iCampaign products and personal group retail sales and spillover from an active upline. They are paid twice weekly.

There are 2 pay lines in the Cooperative portion of the pay plan. One line pays you \$55 checks, the other pays you \$94 checks.
